OVERVIEW

Contract 653 for the provision of motor vehicles to the NSW Government, Local Government Councils, Not for Profit organisations or the Federal Government commenced on 1st April 2008.

Vehicles on this contract were selected on set criteria that meet the NSW Government's policy requirements. The criteria categories were:

- Fit for Purpose
- Safety
- Environmental Performance
- Value of money
- Australian made
- Luxury tax limit

A feature of the fit for purpose criteria was that the Passenger - Car category excluded manual variants unless there is a genuine business case provided by an NSW Government Agency or Organisation, Council or Not for Profit that would allow their acquisition.

In the Commercial - Pickup/Crew Cab 4x4 Category, the only engine type on contract are diesel. Again if there is a genuine business case provided by an NSW Government Agency or Organisation, Council or Not for Profit, they can be acquired.

Throughout the life of the contract some models/variants will be included and other excluded. New models/variants will come on contract provided they meet the criteria established for the contract. Models/variants will similarly be excluded if information is obtained that they no longer meet the criteria to remain on contract.

The criteria will be strengthened as changes occur in the industry.

Where a vehicle is identified as "NSW Police only" no other organisation is able to buy this vehicle except the NSW Police or in some circumstances other Emergency Services.

In most cases the base model will be purchased for pool or general fleet vehicles as per NSW Government Motor vehicle policy. Higher specification vehicles can be purchased by NSW Government Agencies provided that Agencies internal fleet policy provided for that variant.

CONDITIONS

Conditions exist under the contract, which are to be adhered to by all purchasers of vehicles. These have been agreed to by the manufacturers.

If any Agency, Government Organisation, Local Government Council or Not for Profit organisation break these conditions they risk no longer being able to purchase from the contract at the rates provided to the NSW Government.

Condition 1: All vehicles are to be held for a minimum of 9 months or 15000kms from the date of purchase before they can be sold.

Condition 2: Novation or Reverse novation of vehicles is prohibited in all cases. No vehicle purchased under this contract is to be transferred into private ownership unless sold at auction.

ENQUIRIES

All general should be referred as follows:

NSW Procurement Vendor Management: Anita Skrinda Ph: 9372.7658

For any Agency/Organisation which is a customer of StateFleet, enquiries can be referred to StateFleet Purchase Enquiries, John Barlow Ph: 9372.9158.

(note: ONLY StateFleet customers are to contact StateFleet)
