FLEET MANAGEMENT SERVICES

New Fuel Contract - 1 January 2011

Further to the NSW Procurement announcement about the new [fuel contract](#), Clients should now review their fuel card requirements according to geographical location and service centre availability. It is recommended that client agencies retain a 1-2 card policy for all their fleet vehicles.

The contract for United Petroleum expired on 31 January 2011. StateFleet will cancel all existing cards / accounts for this supplier on 25 February 2011, unless notified otherwise by Clients.

If you have any questions regarding the provision of fuel cards for your fleet please contact your StateFleet Account Manager or Graham Moore, On Road Support & Maintenance Manager on 9372 7729.
